

Used this link to download Swift for windows:

<https://swiftforwindows.github.io/>

For setting up Gradle, I first installed Chocolatey through Windows Powershell using this command line

```
Set-ExecutionPolicy Bypass -Scope Process -Force;  
[System.Net.ServicePointManager]::SecurityProtocol =  
[System.Net.ServicePointManager]::SecurityProtocol -bor 3072; iex ((New-Object  
System.Net.WebClient).DownloadString('https://community.chocolatey.org/install.ps1'))
```

Then installed Gradle through Windows Cmd line.
